Hi Tiffany,

I hope this email finds you well.

I recently realized that amidst the communications from my lawyer, the letter from my doctor may have been overlooked. Please find her letter attached for your review.

I understand that I have not made a payment for June. However, as my occupancy agreement expired on May 24, 2024, there is currently no defined amount for this payment. Additionally, my income is presently \$0, making it impossible to determine 30% of nothing.

Despite the challenges we have faced, I want to assure you, the Board, and Scott that I am committed to resolving this situation and repairing our relationship. I am eager to have a productive discussion and negotiation to reach a fair and sustainable agreement. If we can achieve this, I am more than willing to continue making payments.

Habitat's mission and values are deeply important to me and my family. I am confident that by working together to find a solution, we can highlight Habitat's commitment to supporting families and demonstrate why it is a charity worthy of continued public support. Keeping my children and me in our home and within the program would be a powerful testament to this mission.

As a side note, Paisley just made the provincial team for karate, and they are both gearing up for Nationals in Laval at the end of this month. They are crushed to possibly not have their home to come back to.

In addition to my doctor's letter, I am also including letters from my children expressing their thoughts and hopes. Their voices are a reminder of what Habitat means to us and why we are dedicated to finding a positive resolution.

Thank you for your attention to this matter. I look forward to your response and to the possibility of working together toward a positive outcome.

Warm regards,

-Erin
